

The Miskito Post

Reaching the Miskito People of Nicaragua

Hawleys to Nicaragua

March 2017

Moving Forward

Please Pray for:

-More souls saved and spiritual growth

-Bible Institute

-Our personal and home security and health

-Development of a church property

-Provision for boat ministry to reach more river communities

There is no mail service to Waspam, so any mail should be sent to:
Brent Hawley
449 Quail Court
Taft, CA 93268

We thank the Lord for what He is doing in lives. In January, three members of the church expressed interest in beginning in the Bible Institute. This year we have three first year, and three second year students. One of the new students, Jose, feels a great burden to evangelize, not only Miskito People, but to reach out to the Mayagna People that are scattered in their own villages along the river and inland. He frequently brings visitors and sets up follow up visits for us to give them the Gospel one on one. I recently led a young man names Jasmani to the Lord on one such visit.

We baptized three new members in February as well as held the Annual Missions Conference. The conference was well attended and commitments are up.

In March, we hosted a twelve man building team from Valley Forge Baptist Temple in Collegeville, PA. These men came to work!

River Ministry

With all the construction, Bible Institute, and ministry in Waspam, there still hangs the burden of the countless lost souls in the villages along the Coco River. We are negotiating a boat purchase at this time to aid the river ministry. Please pray for

They installed the roofing on the church house, poured the floor, laid the block for the walls of the septic tank, did some painting, and prepared the rebar for an elevated water tank. They were a spiritual encouragement to me personally. Thank You!

The house is nearly ready to use for church services, Bible Institute, and to house the national Pastor. The church men are working very hard to complete the final steps for occupancy.

We are continuing to develop a separate mission's base where we plan to live and someday host teams/short term missionaries. I placed five power poles and bought a

transformer to bring power to the property, yet there are a few hurdles to be overcome in order to connect. Please pray specifically for this. Currently, a well for water is in construction.

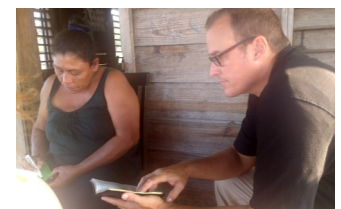

Building team and progress at the end of the week.

Beginning of the week...

God's direction, protection, and provision in this endeavor.

The last few months have been a little overwhelming at times. We are here to be spent for the Lord to reach these people. I just ask that you please pray for guidance

Explaining the Gospel last Saturday afternoon.

as we seek to serve God in the most effective way and with the right priorities.
