

June/July 2020

Dear Pastor and Praying Friends,

Once again, thank you for taking the time to read our letter. I am reminded of the encouraging verse in Psalm 121:2 which says *My help cometh from the LORD, which made heaven and earth.* We are thankful for the Lord's help and for His continued protection during this unprecedented time we have been going through.

We have been enjoying an absolutely beautiful summer! Though there was some disappointment at not being able to attend Bible Camp this year in Saskatchewan, we have been making the most of it, and enjoying family time together in the beautiful weather.

During most of the month of June we still were restricted from having "in-person" services in our church building. For approximately 14 Sundays we did a livestreamed service on Facebook, but we were excited to be able to reopen for services on June 28! The livestreamed service had really good viewership, so we have been continuing it even though we are now assembling together again. There are no group-size restrictions in place so we can have as many as will come. Since reopening, we have had rather low attendance for our services partly due to such nice weather distracting people from wanting to attend. That said, we have had some first time visitors wanting to "check us out." This past Sunday though, we did have around 25 people in the service because Becky and I were celebrating our 17th anniversary and after the service we had a cake and time of fellowship. There also was a new family visiting for the first time as well! Please pray that they would return, and that more people would make the commitment to attend.

As of now the cases of the virus in our territory have been very minimal and life is pretty much back to "normal" for us. The stores still have plexiglass up at the registers and will probably be that way indefinitely. There is still a 14 day quarantine for those travelling into the territory, but that does not affect us, since we don't have any travel plans.

We were blessed to be able to sell our older vehicle and get a newer one. It's an 8 passenger Chevy Suburban. This will be very helpful to transport people to and from church!

Thank you again for your prayers and support!

In Christ,

Nathan, Becky Jones & Family
